# THE CAPITOL AT ALBANY

Height to apex of tower, 390 ft.

Width of building 300 ft.

Depth " " 390

Area " " 2<sup>100</sup> acrs

Main approach ex-  
tends 173 ft.

Material, chiefly  
granite from Maine

It has now (1889)  
been 22 years in  
building, has cost  
\$18,082,833, and  
will require  
several millions  
more to complete  
it. \*

ALCOVE IN  
ASSEMBLY CHAMBER.

FIREPLACE

## Assembly Chamber.

This is, without doubt, the grandest legislative hall in the world. It is 84 by 140 ft. including galleries. Four pillars, 4 ft. in diameter, of red granite, originally supported the largest groined stone arch in the world, the key-stone being 56 ft. from the floor. The groined ceiling has been replaced by one of carved paneling.

THE SENATE

CHAMBER.

In the richness  
and variety of  
its decorations,  
it has scarcely  
an equal in  
the world.

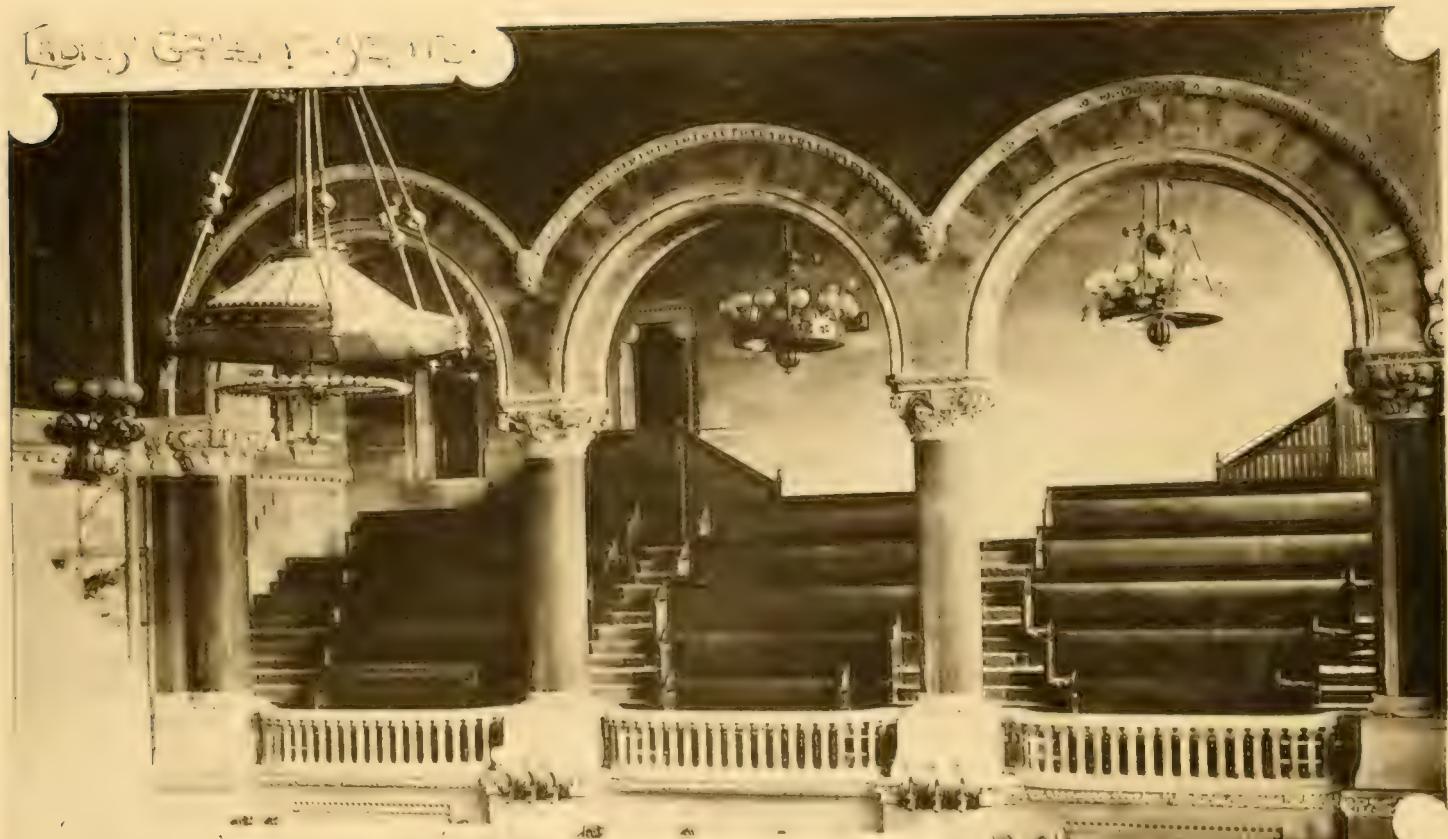

A Bit of the  
Senate Grand  
Staircase

Governor's Room.  
60 by 40 ft. - Wainscotted  
16 ft. high with mahogany;  
Spanish leather hangings  
above that of carved  
mahogany ceiling -

only  
one  
in  
the  
world

These beautiful allegorical pictures, by that celebrated artist, William M. Hunt, were painted on the upper portions of the north and south walls of the Assembly Chamber.

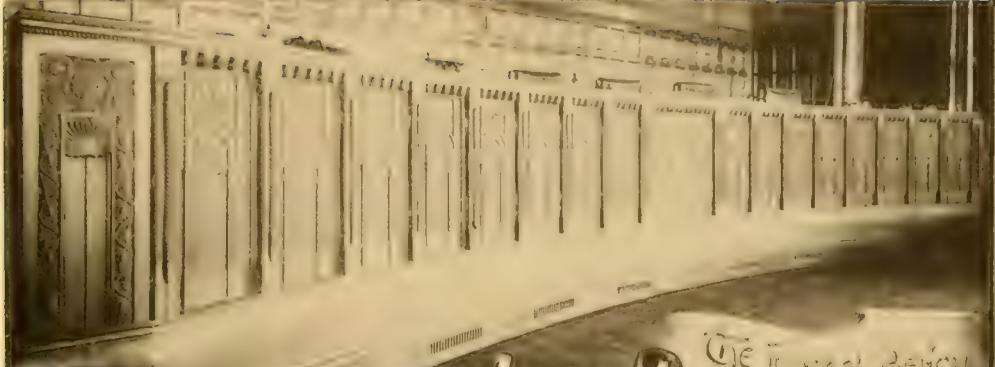

Size - 15 by 45 feet.

Cost - \$15,000.

They are now hidden  
by the new ceiling.

Gejueg's Bedchamber

(And one of its panels)

In the County of Flanders

Exquisitely carved in oak after  
designs by the most celebrated architect,  
the late King RICHARD III of England.  
Are we not it is regarded as a masterpiece?

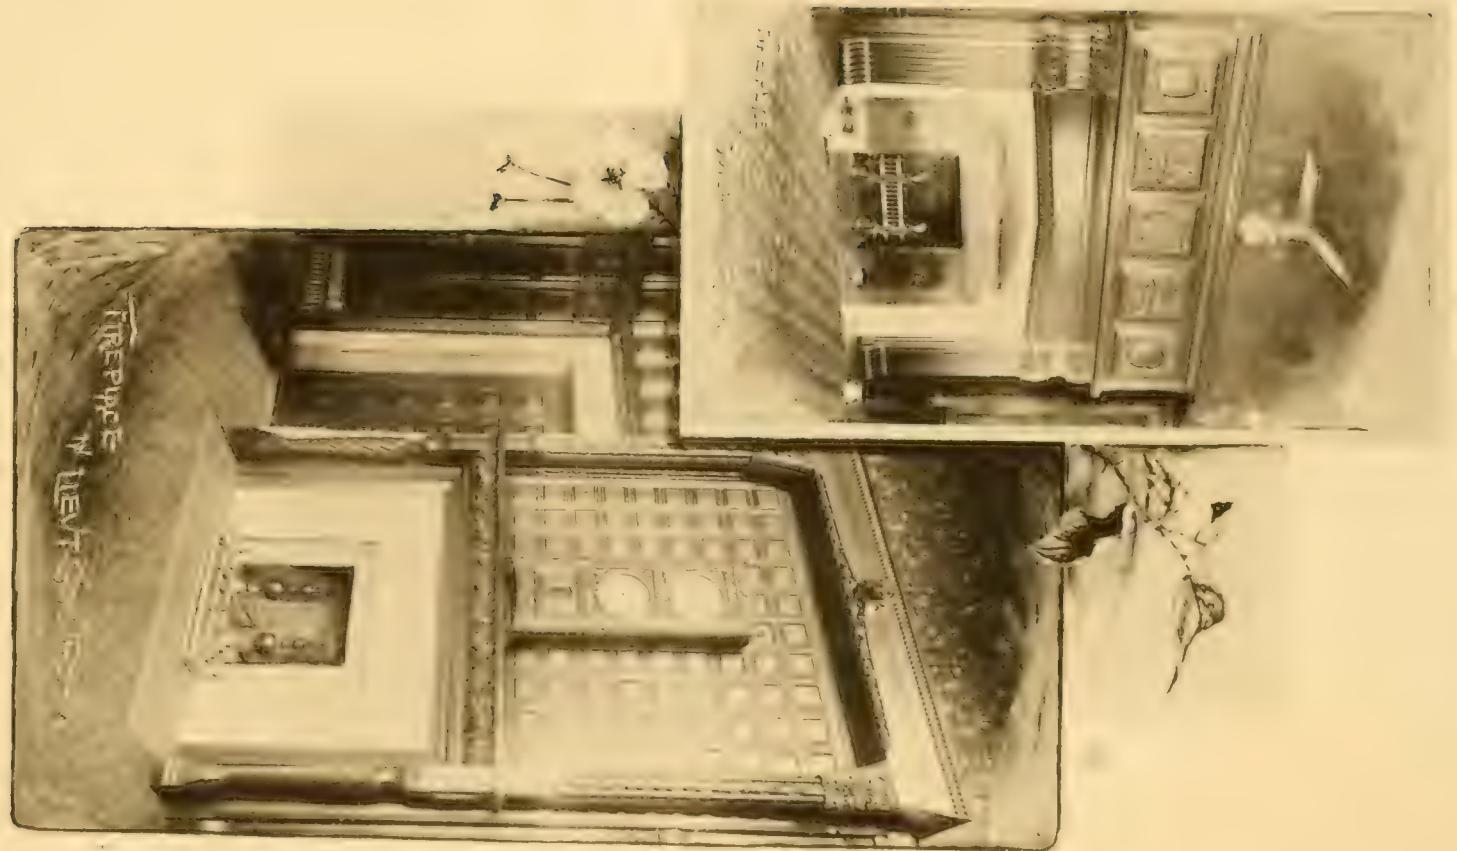

The fireplace is  
composed of  
Siberian marble  
and Mexican Copper
